William A. Bradler.

PROSPECTUS OF THE "NATIONAL MON-

UMENT,"
weekly journal to be published in Washington
under the sanction of the Washington National
Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHED

Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting selectific stricles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of purty politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of adding in the evertion of the noble column now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of Washinston would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indeated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is carnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the exceeding of the Monument will be, in any event, applied to the support of the paper, nor the Society in any manner held pecuniarily responsible.

To give the public an idea of what may be st

To give the public an idea of what may be done with the ournal it is proposed to publish, it may be stated that a lat of fifty thousand paying subscribers, at two dollars each, will yield an annual net profit of from fifty to sixty housand dollars.

The postmasters, and secretaries of all organized bodies broughout the Union, are respectfully requested to act is agents in obtaining subscriptions, thus siding the great hipect of our exertions.

As all editors and publishers, on account of the object for which the Monument newspaper will be established, must wish it to succeed, it is hoped that they will contribute to its success by publishing this prospecties.

All moneys will be remained, and all letters and moneys addressed prepaid, to the general agent of the Monument Society, Hon. Elisha Whittleevy, Washington.

OFFICKES—Millard Fillmore, exception President; Arch. Henderson, First Vice President; Walter Lenox, (Mayor of Washington.) Second Vice President; Thos. Carbery, Third Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

EDAND OF MANAGERS—Winfield Scott, N. Towson, Thes. Mauroc. W. A. Bradley, P. R. Fendall, Walter Jones, Thomas Blacden, Peter Force, W. W. Scalon, M. F. Maury, T. Harriey Crawford, Benj. Ogle Tayloe, Elisha Whittlesey, Terms.—The Moskment will be printed on a double-royal sheet—the paper and type being of the best quality—and in quarto form, containing sixteen large pages, that it may be more easily preserved. The price will be two dollars per annum, payable on the receipt of the second number. The unitary of the enterprise not admitting of any credit, none can be given.

Societies and clubs will be furnished with the Monument on the following terms: 3 copies for \$5; 5 copies, \$5; 10 copies, \$15; &c.

Those who are disposed to patronise the Monument are requested to forward their names to the General Agent, without delay. The first number will be applicable acts. Corrected Services of the President; Arch. Henderson, First Vice President; Walter Lenox, (Mayor of Washington,) Second Vice President; Thos. Carbery, Third Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

BOARD OF MANAGERS.—Winfield Scott, N. Towson, Thes. Muuroe, W. A. Bradley, P. R. Fendall, Walter Jones, Thomas Blagden, Peter Force, W. W. Seaton, M. F. Maury, T. Hartley Crawford, Benj. Ogle Tayloe, Elisha Whittlesey, Terms.—The Monwarst will be printed on a double-royal sheet—the paper and type being of the best quality—and in quarto form, containing sixteen large pages, that it may be more easily preserved. The price will be two dollars per annum, payable on the receipt of the second number. The nature of the enterprise not admitting of any credit, none can be given.

Societies and clube will be furnished with the Monument of the following terms: 3 copies for \$5; 5 copies, \$5; 10 copies, \$15; kc.

Those who are disposed to patronise the Monument without delay. The first number will be published early in May, and the second day of August, and weekly thereafter; time being allowed for the Prospocituate be circuitated, and for the agents to make returns. As all subscribers will be contributors to the Monument itself, their names will be published in the paper.

Austin's Magic Freezer,

Through in six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented September 19, 1848.

The distinguising merits of this Apparatus are—

Ist. The astonishing sapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a fonth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

H. F. Jackson,

Eutaw House, Baltimore, May 15, 1848.

"This is to certify, that during the summer of 1848. I used one of Austin's Patent Ice Cream from 10 to 50 gallons per day during the ceason; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in anxing ten gallons of superior quality Ice Cream from five of plain Gream, in thirty minutes from the time I commenced working it.

Baltimore, April 0, 1851."

Manufactured and for cale by the patentee.

Washing, at the usual pates.

All dues are payable in advance. The tuition is remitted, on application, to all students designed for the Ministry.

The tuition ise for Modern Languages will be eight dollars per session to be paid to the Instructor in advance.

For students who do not design to prosecute the whole Course required for a degree, a more issuited range of stadies is furnished, adapted to the sphere and course of life of each individual, so far ag such can be reasonably anticipated.

ipated.

The studies of this Course are arranged under the following departments, to wit:

1st. A MATHEMATICAL DEPARTMENT—In which, beginning with Arithmetic and Algebra, the student will be carried, scriatim, through all the higher branches of the Mathematics, rading in their application to Natural Philosophy, Astronomy, &c.

2d. An English Department—Comprising instruction in Orthography, Reading, Elecution, Grammar, Writing, Geography, History, Composition, Rhetoric, Logis, Intellectual Philosophy, Moral Philosophy, Pullical Grammar, Story on the Constitution, Philosophy, Ornithology, Natural Theology, Elematus of Criticism, and Evidences of Christianity.

teral Theology, Emilipus to Christianity;

3d. A Mercantus Department—In which will be imparted an acquaintance with all that is necessary to qualify youth for the immediate fluttes of the counting-house, including—

1. Pennmanship—By an original and popular system of this art, which invariably produces a bold, finished hand, recullingly sdapted to the purposes of the accountant and

this art, which invariably produces a bold, finished hand, peculiarly shapted to the purposes of the accountant and business man.

2. Arithmetic—Comprising numerous abbreviated methods of computing Interest, Discount, Equation of Payments, &c., and other mercantile calculations founded on per centage; together with all such operations as are requisite for a thorough knowledge of the husiness of the counting ratur.

3. Book Asspring—Single and Double Entry, by the most approved methods. A complete course of instruction in this branch will be furnished, designed to fit the student to take charge of any set of account books.

4th. An Assicultural Darakrash.—Comprising a selection from the English and Mathematical course; and, also, Surveying, Sudany, Mineralogy, Geology, Chemistry, and Agricultural Chemistry; the last two illustrated by experimental lectures.

5th. A Civil Example Darakrash.—In which are taught Arithmetic, (mental and written,) Algebra, (mental and written,) demands, Trigonometry, Surreying, with the use of lastruments in the field, Practical Engineering, Architecture, Perspective, Draughting, and Topography.

6th. A Tracurar Beragrains.—The course of study will consist of a Judicious selection of subjects from the

neering, Architecture, Perapective, Draughting, and Topostrably.

6th A Tracura's Department.—The course of study
will consist of a Judicious selection of subjects from the
other departments, including all the branches pursued in
our common schools. Practical Lectures will also be given
on School Traching, both as a school and at an art.

Pupils will not only thus receive the fuffest instruction
relative to the best and most popular methods of teaching,
but they will also have opportunities of exemplifying
them, by hearing recitations in the lower departments of
the Institution.

7th. A Department of Money Languages—In which
students who wish to take a thorough course can have an
opportunity of doing so; while others, whose object may
be to acquire sufficient Knowledge to translate with facility, and to pronounce with thereafte therecturess, in as
short a time as possible, are also provided for.

As the course of mong the pupils, and not a single death either here, or from diseases contracted while here. The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Cheraistry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Lating Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and finginesiring; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any smaller one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laborstory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

SAMUEL ALSOP, mar 34—

Principal, Wilmington, Del.

MORE HOME EVIDENCE. TESTIMONY OF ONE OF OUR LAWYERS. you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY." in the diseases which it is assigned to care, are sufficient, in my opinion, to establish fee reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a lightcine—yet the great benefit which I have witnessed from its uses and the salutary effects which I have witnessed from its uses and the salutary effects which I have witnessed from its uses you may think proper to make of it, this forms acknowledgment of its sanitary virtues. My, own sees was Dyspepsis of long duration, and very aggregated in its character, manifested by an almost total destruction of the thigselive functions; great debility, near the joint of the particular of the character, and inspired appetite, with pairs and a burning sensetion in the jeft side of the chest, palpitation of the heart, vertige and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends in which your Medicine was asken, were Dyspepsis, Chaonic Headstons, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant in the taste as a cordial, and in my experience corrects all derangement of the stomach, restoires the wasted or enfectled energies of the digestive organs, and impairs strength and reanimation to the whole system.

Very respectfully, yours, &c.,

J. HOWARD GRI FFITH,

Marshall Buildings,
Baltimore, Aug. 24th, 1850.

VALUABLE LAW BOOKS. WE invite the attentions of the Profession, and other desiring Law Books, to our very extensive stock which, we believe, contains the best assortment of American Publications in the United States. Perficular attention given to farmishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports, English Common Law Reports,

58 Folumes, with a complete Index to the first 47 Volumes.

Since volume 38 of this series, The English Common Law Reports have been seprinted in full, "With volume 44, we commenced binding each English volume separately, in stead of, as formerly, two English in one American volume Price—For the first 48 vols., \$3.50 per vol.

For the succeeding, 2.50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared with the rates of some of the principal American Reports of even inferior merit, recommends them particularly to the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. Grosse Sharswoop and George W. Biddlessen. 4 vol.570.45.00.

With this Key to their centents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instintly accessfully. These Reports will be found so compresentive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

New English Exchequer Reports-Pleas and

Equity.

To be reprinted in full, in best style, with Americal lotes, by J. I. Clare Hars and H. B. Wallace, Esqrs, a Notes, by J. I. CLARE HARE and H. B. WALLACE, Esqrs, at \$2 50 per vol., bound.
Including McClelland and Younge, Younge and Jervis Crompton and Meeson, Crompton and Meeson, Crompton and Meeson and Kosoce, Meeson and Younge and Collyer—in Equity.

Meeson and Welsby, in 19 vols., Welsby, Huristone and Gordon, vol. 1, published and ready for delivery.

**2" We take pleasure in referring to the accompanying letters, explanatory of the character of these deports, and

By We take pleasure in referring to the accompanying letters, explanatory of the character of these keports, and their value to the Profession in this country.

CAMBRIDGE, January 25, 1845.

Mesers, T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very him to where of the recent Explerion.

sincerity say, that I entertain a very him average of the recent Exchequer Reports. In my juminant they are not excelled by any cotemperaneous Reports. It may impressed by any cotemperaneous Reports. It can be a supported by any cotemperaneous Reports. It can be a supported by the support of more importance or value for a Professional Library.

JORIGI SERBLY.

CAMBRIDGE, January 25, 4845.

Gentlemen: Your letter of the 24th has been received in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to the time, to an American Lawyer, and as to the value of the time, to an American Lawyer, and as to the value of the Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England: I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,
SIMON GREENLEAF.

Messrs. T. & J. W. Johnson.

Law Library.

Law Library.

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers. The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realise the expectations of those who have anjoyed Smith's Mercentile Law, Touchstone, Broom's Legal Maxims, Archbeld's Nist Prius, Archbeld's Landlord and Teunst, Crabb on Real Proporty, Smith on Contracts. The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable oquients have been presented to the Profession, is the best widenes we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

NOTICE

BALTIMORE AND WASHINGTON RAILROAD.

BALTIMORE AND WASHINGTON RAILROAD.

N and after WEDNESDAY next, 9th instant, the station on Peenkylvadia avenue will be vacated, and the new one on New Jersey avenue occupied.

The Passengor trains will leave the latter, commencing at 6 p. m., as usual, at 6 and 9 a. m. and 5 p. m. daily, except on Sunday, when but two trains run, viz., at 6 a. m. and 5 p. m.

In making this change, the undersigned desires to call attention to the rules of the Company, in regard to the ecception and delivery of merchandise:

Ist. Shippers are reminded, that in all cases a bill with full directions should accompany the goods.

This is for the protection of both parties, and unless compiled with the goods cannot be received.

2d. Consignees are notified that all merchandises must be removed on the same day upon which it is received, as he Company cannot hold itself responsible for any thing left in its house during the night.

The hours for reception and delivery of merchandise refrom 8 a. m. till 4 p. m.

The undersigned takes occasion to remark that these are not new regulations, but he has been compelled to call attention to them from their frequent violation, which has aused much and serious inconvenience.

T. H. PARSONS, Agent.

FURNISHING MAIL LOCKS AND KEYS.

FURNISHING MAIL LOCKS AND KEYS.

Post OFFICE DEPARTMENT,

March 14, 1851.

It being desirable to substitute locks and keys of some
other kind for those now in use for the mail service
of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered
at the Post Office Department until the first day of July
next. The different locks will be submitted to a commiscion for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right
on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term

written notice to that effect, not more than nine nor less than elx months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may levelop. It is, however, proper to state that a lock sultible for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adopted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into: afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the fatter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentes will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Bepartment, if the Postmister General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to fulfil faithfully the terms and conditions of his contract, the Postmister General shall have the right, besider a resort to the penal remedy bereinafter mentioned, to amul said contract, and to contract anew with any other party or parties as he may see fit, for furnishing similar locks and keys.

In deedding upon the proposals and specimens offered, the Postmister General may deem it expedient

Philadelphia Type and Stereotype Foundry.

THE Number for Desember, 1850, completed the ty-third semigraph volume. The ty-third semigraph volume. The ty-third semigraph volume for ty-third semigraph volume new contains the commencement in July 1839, and volume now contains flow than even hundred any tavo pages. A few complete set of the Magazine as obtained at the publisher's effect, 142 Futton street, York, nearly and substantially bound, for two delians a haif per volume.

The following are a few of the many commendator tera received by the cellion of the Merchanta Mag from distinguished statesmen:

Letter from the Hon. Heavy Clay.

Letter from the Hon. Henry Clay.

Assixtant, 20th July, 1849.

Dear Sir: I wish to express to you the gratileation: I derived on receiving the July number of the Murchayne Magazine and Commercial Review, from viewing 'goin portrait in the beginning, and from treading your address to your friends at the end of it. When we fiel under obligations to those who have contributed to our information and samusement, we are naturally desirons to possess all the knowledge of them, of their appearance, of the fractures of their countenance, and of the churacter and habits of this mind, which we can acquire. You have pinced your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hestiation in expressing my humile opinion that it is eminently entitled to the public verification that it is eminently entitled to the public verification of valuable statistical and other information, highly useful not only to the merchant, but to the states—uan, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been and hope that it may continue to be, liberally patronised.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant.

Freeman Hunt, enq.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was over published. To the merchant it seems quite lindipensable, and to the statesman and man of general information almost equally desirable. If is a grand repository of useful facts and information, which can be found on where so well digested and so accessible as in these numbers. I only re

where so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Latter from the Hon. Thomas H. Benton,

WABRINGTON CLTY, April 20, 1849.

Mr. Freeman Hunt.—Ser. I owe you many thinks for the opportunities I have had to read the Merchant? Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, where large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of many modest, but, nevertheless, of most useful operations—they merchant of the interior also—who will find this magazine to abound with the information the pursuit of his chiefmess and the elevation of the microwalls character papers. Nor is its utility at all confined to increasing the obtainess and the elevation of the microwalls character are charged with managing the rafficient of the micro. For myself, I have found it most useful to me is my sensorial labors, and have been in the habit for many years of carefully consulting it.

Very respectfully, sir, your obedient servant, THOMAS H. BENTON.

Letter from Hon. Wm. H. Seward.

My Dear Sir: Have the goodness to place my name on your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

I am, with great respect, your humble servant, Freeman Hunt, eq. Willial M. H. Seward.

ment.

SPRING IMPORTATION. W. & S. PHIPPS & OO., 64 and 66 Broadway, New Vork, and 16 Milk street, Boston, are now re-ceiving a complete assortment of British, French, and Ger-man Steple and Fancy Dry Goods, which they offer or liberal terms.

N. B. Will receive the newest style of Dress Goods by very steamer. A large assortment of Trimming Good always on hand. BALTIMORE PIANO FORTE MANUFACTORY.

BALTIMORE PIANO FORTE SIANUFACIORI.

WISP & BROTHER, Manufacturers of Boudoir, Grand, and Square Planos, requiest those who would be assured of a first class Plano, one that ladies can perform on with the greatest possible savantage—one that the terred can be instantly adjusted to the exact dirength of the fracers and movement of music, one that will stand in convert tune, one that the tone will not become shrill and crating, that is chaste of style and elegantly made up of straight and regular curve lines, that will last an age—to dive them a call. The ancient standing of the Baltimore Factory, and liberal patronage of citizens and others of the first order of artistic taste and sciences, conceded at once the most critical, have been fully anticipated. If eirocently finished Grand Plano, minutely reviewed by the most accomplished civil engineers and master artists, has been denominated truly a Grand Plano; also, that their late Boudoir, for style, power, and compass of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

J. J. WISE & HROTHER,
No. 31 Hanover street, Baltimore.

* Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree hard, or soft touch, so that ten thousand or more performers, all different, may each find the touch they prefer.

COLD SPRING WATER CURE. ELASTIC* UNIVERSAL TOUCH.

COLD SPRING WATER CURE.
THIS NEW AND SPLENDID ESTABLISHMENT for THIS NEW AND STLEADING the various diseases with which the scientific treatment of the various diseases with which the human system is afflicied, is situated about three miles from the city of Buffalo, in a rural spot, and three miles from the city of Buffalo, in a rural spot, and

which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs very ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Mesera Hodges & Bryants; and the scenery in all directions is meruppassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a gisnee it he broad expanse of Lake Erie, the Ningara flowing majestically towards the Falls, attensive figrasts, and the "Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated. "Cold Spring," is uncurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and issufficiently capacious to accommodate seventy-five patients.

Connected with the stablishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic excresses.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Lavis, M. D., formerly of Dannylle, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been seaured, and that female patients can at any time avail there elves of her invaluable sid and counsel.

lege, have been segured, and that famale patients can at any time avail there elves of her invaluable aid and connect.

The steward's department is under the control of a gentleman eminently qualified for that position; and nowearied pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the care of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

of the various forms of disease, and constructed on a reals not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Refarm." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and carshive agent, is a practical substitution of a simple and tenuarkally efficacious mode of curing the sirk; for that system of drugging, depleting, and cantering, which, in obtaining the mastery over disease, too frequently places the patient leavand the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and rendur, vertal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the lest, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation. Philadelphia Type and Stereotype Foundry.
